Subject: SCAR OSC S36: Thank you !

Dear Jocelyn

I want to thank you again for helping with the judging of the presentations at the SCAR OSC session S36. The awards for winner and honorable mention were made last night, and as part of the presentation the names of all judges were shown as were the judging criteria. Molly Jia was there to get her awards. She was clearly ecstatic, to the delight of the audience including those who attended the session.

This is the first time such a judged session of science presentations has been done at SCAR OSC, and the response has been very positive. As such, we are talking of having a similar session(s) at the next SCAR OSC in 2016 in Malaysia.

We have decided to put the video for Molly's presentation as well as those for the two Honorable Mention presentations up at the SCAR website. This will probably be in a few weeks, after I have a student do the editing work. I would like to include the names of all the judges in the acknowledgements. I hope this is ok with you.

Thank you again for helping to make this a successful event!

Best regards,

Alan

On behalf of the co-conveners: Alan Cooper, Rob Dunbar, and Julianne Stafford
